ABOUT ME

I'm a BSc Computer Science graduate from Wits University, specializing in digital transformation, process optimization, and client support. Currently interning at DY/DX Digital, I focus on workflow automation and business process optimization. I blend technical skills with leadership and communication, developed through governance roles and client interactions. My interests include scalable systems, operational efficiency, and consulting across industries, with a particular focus on AI and automation. I aspire to a career in technical leadership and digital transformation management.

EDUCATION

Wits University | Graduated in 2025

Bachelor of Science in Computer Science (majoring in Computer Science and Computer Applications)

Related Coursework: Software Design, Operating Systems & System Programming, Advanced Analysis of Algorithms, Formal Languages & Automata, Machine Learning, Parallel Computing, Computer Graphics & Visualization, Database Fundamentals, Computer Networks, Discrete Computational Structures, Data Structures & Algorithms, Scientific Computing, Mathematical Methods & Modelling, Linear Algebra & Multivariable Calculus, Mathematical Statistics, Psychology

Mathew Phosa College | Matriculated in 2021

National Senior Certificate

Distinctions in : Life Science, English Home Language, Siswati First Additional Language, Geography, Life Orientation
Level 6: Mathematics & Physical Science

WORK EXPERIENCE

Digital Transformation Intern | DY/DX Digital (Jan 2026 - July 2026)

- Designed and implemented digital workflows using low-code/no-code tools to improve internal and client-facing operational efficiency.
- Built and managed Kanban boards and automated processes for tracking tasks, support queries, and change requests.
- Conducted business process analysis, developed dashboards, and provided training and support to enhance visibility, accountability, and drive user adoption.
- Collaborated with cross-functional teams to drive digital transformation initiatives across strategy, delivery, and operations.

Vacation Work | Mukuru (July 2022 & July 2023)

- Assisted in software testing and collected data for product enhancements.
- Job shadowed Software Engineers for two weeks, gaining exposure to development workflows, collaboration practices, and real-world engineering environments.

LEADERSHIP EXPERIENCE

- Deputy Chairperson – Wits Sports Council (2025):** Provided strategic oversight for student sports and liaised with executives and athletes
- Head of Corporate Events & Partnerships - Wits Developer Society (2025):** Led sponsorships and corporate engagement and built industry relationships
- Lead Mentor - Wits University (2023–2024):** Mentored first-year students and coordinated mentoring activities
- Student Representative – Wits SRC Secretariat Office (2024):** Assisted with governance and administration and engaged with stakeholders

SKILLS & INTERESTS

- | | | | |
|------------------------------|------------------------------------|----------------------------------|----------------------|
| • Software Development (OOP) | • Dashboards & Reporting | • Git / GitHub / CI/CD Pipelines | • Agentic AI |
| • Software Architecure | • Workflow Automation | • GraphQL | • Claude Code |
| • Low-code / No-code Tools | • Business Process Mapping | • TDD/Jest | • LLMs |
| • SQL, Python, Java | • Dev Testing & End-to-End Testing | • Wrike, Pipefy, Trello | • Data Analysis |
| • Javascript, HTML, CSS | • Agile Development | • Slack | • Rest APIs |
| • React, Node.js | | • Microsoft Office | • Prompt Engineering |
